A photograph that appears to be a painting. This effect could be achieved in camera or through post processing techniques. We have all seen photographs that when first viewed appeared to be a painting. This can be accomplished through composition, costume selection, poses, colors. Another option that requires less creativity is to use filters in your favorite photo editing software to achieve the effect. Click here for example photographs that [Looks Like a Painting](#).

PRESENTATION BY
PADMA INGUVA
FLORAL PHOTOGRAPHY WITH PASSION
THURSDAY
2 MARCH 2023

SEVERNA PARK BAPTIST CHURCH
FACEBOOK LIVE STREAM

ARUNDELCAMERAclub.org

Join us on 2 March for a presentation by Padma Inguva on “Floral Photography with Passion.”

Padma will share information about some of her techniques in creating stunning flower portraits.

These techniques include photographing flowers on Lightbox, multiple exposures both in Camera and via Photoshop, applying textures to floral images, selective focus, blurred backgrounds, compositional elements, backlighting, and bokeh! This program also includes tips on processing colors which are considered difficult to photograph, like red and purple.

Artist Statement: In her own words "My goal as a photographer is to get people to slow down, unite with the natural world and absorb the beauty of flowers, create an oasis in this rapid, constantly demanding stressful daily life. There is no better way to escape this running-around than spending time looking through a lens. I want to set people on a path of inspiration, hope, joy, and love that comes from an appreciation of these tiny treasures all around us. It gives me immense joy in taking you down a beautiful journey into flowers through my lens where you admire and observe flowers with a whole new perspective and create art that lasts far longer than the flower itself."

Cover Images

Club members have lots of ways to earn recognition for their photographic works of art. Certainly contests are one of the primary methods. The end of year banquet and awards recognizes the best of the best for the year. Another way is to have your image selected to be the cover image for our monthly newsletter.

You may wonder how images are selected for the cover of our newsletter. Well it's not rocket science. As newsletter editor, I just pick them from the previous months winning images. Sometimes I will use an image from a club event, especially in the summer when we don't have contests. If all else fails, I pull one from my personal library.

Ok there is one rule. Since the newsletter has a landscape orientation, the cover images usually must be landscape as well. I can think of one exception where I had to display two images on the cover one month.

The other issue is image quality. Sometimes when I scale images to fit the newsletter, they have artifacts or noise that make them unusable.

I hope when a club member sees the newsletter with their image prominently displayed on the cover, they get excited. So, I try to spread the wealth.

I also try to select both Novice as well as Unlimited images. I think Novices get more excited to see their image on the cover.

I counted up how many cover images each photographer in the club has had over the last 133 issues.

No surprise as the newsletter editor, I have had the most images on the cover. Ok well that's not fair. I cheat.

More importantly when you look at the other photographers, some of our best have been showcased numerous times on the cover.

Church Appreciation Event

This is the wonderful note that [Severna Park Baptist Church](#) left for us for last Thursday's meeting night after our fellowship event and introduction!

Thank you again to everyone who helped out with the fellowship meal!

Also a big thanks to everyone who visits us at the Church every meeting night that helps set up the room before the meeting and reset the room/tidy up afterwards! I couldn't be more proud that our club and members has helped make Arundel Camera Club's fit into the generous amenities offered by the Church as easy and worry free as possible for them!
