May Field Trip - Kinetic Sculpture Race

A Day at the Races

Dolphy Glendinning met the Elizabeth and Godfrey Gauld at the museum where the race was to start. There were several big sculptures and a lot of small ones. They all had to pass a break test before entering the race.

When the race started it was more like a parade. After the last one went by we headed to the water taxi to see them enter the water.

The race started at 10:00 am. They were due at Canton to enter the water by 11:30- 1:30. Not knowing the different taxi routes, we spent from 10:30 to 12:30 trying to get to Canton. By the time we got there, there was a large gathering of people already there.

We took a few pictures from the taxi and decided to head back to the Inner Harbor for lunch. We then decided to head home to beat the traffic when the O's game was finished. I think it's safe to say that the three of us had a good time.

Meeting Nights

The Arundel Camera Club meets every Wednesday evening at the Severna Park High School when school is in session, weather permitting.

We meet at 7:30 pm and usually end around 9:00 pm. Meetings are open to the public, but only dues paying members may enter competitions.

Meetings alternate with programs of informative speakers (educational, technical, etc.) and photographic competitions (slide, print, and digital on alternating weeks). The club also has monthly (and occasionally more often) photographic field trips to locations of interest.
